### Product Description

A single side coated True Artist Canvas (cotton Fabric) for high quality digital fine art applications on inkjet plotters and printers. This product has been developed for picture reproduction print presentations with full colour output graphics. Specifically used with art reproductions and photographic reproductions. Offering full aesthetic art realistic reproduction prints.

### Applications and Characteristics

The inkjet coating is water-resistant. The water-resistant prints can be obtained with the output devices especially high-lighted below. Pigmented inks or UV inks are highly recommended for outdoor applications of long term requirements. This product was mainly designed for indoor reproduction artistic prints. This product can be treated and used for banner applications. For desktop printer applications, it is recommended that each sheet is fed singularly as the weight and makeup of the product can cause feeding problems.
