

Camera/Binocular Accessories & Utility Strap™

PRO STRAP™ – 3/8" & PRO LOOP STRAP™

- Fits most cameras & binoculars
- Easy to attach
- Fully adjustable

Pro Strap™-3/8" (approx. 28½" – 56½")

Pro Loop Strap™ (approx. 40" – 46")

- Lightweight
- Quick disconnects
- Very strong & durable
- Comfortable & fashionable
- Non Slip Grip™

The **PRO STRAP™-3/8"** and the **PRO LOOP STRAP™** offer serious photographers using large cameras and lenses or a portable power pack a welcome reprieve from the heavy weight of their gear. The patented weight reduction system makes equipment feel 50% lighter and 100% more comfortable. The weight is evenly dispersed while the strap functions as a shock absorber to eliminate neck and shoulder fatigue. The 3/8" Webbing Connectors give added adjustability and versatility so a camera can be easily worn across the chest if desired. The Pro Loop Connectors are ideal for especially tight connection points. They loop through the connection area to form a slip knot which "falls" away freely from the camera when in use. A comfortable and secure system!

PRO STRAP™ – 3/8"
